PLACEBO

Design — Jeffrey Huyghe

Born out of the mystic mind of Jeffrey Huyghe, Placebo quickly became a large product family. Placebo is shapes, sizes, up and down lighting, and stylish shade accessories to dress it up. A multitude of playful general lighting luminaires for residential, hospitality and small retail spaces.

Playful Placebo effect

8 models to play with! Can you even wrap your head around the trail of possibilities? Imagine a row or flock of hanging Placebos, above a dining room table or a long counter space. Alternating between up and down lights, a tube shape or a ball shape. Creating patterns galore, this Placebo effect brings pure pleasure.

A feast of mix & match

All of Placebo's aluminium LED units are available in white and black structure, anodised champagne, bronze, silver bronze and black. Decide on a finish, then move on to choosing a tube or a ball shape, each in 2 sizes, with an up or down light effect. Also, add volume and presence to your Placebo expression with any of our 3 shades, Douli, Beanie and Sombrero. And watch the light effects they create!

Complexity in disguise

Deceptively simple in appearance, this pendant light hides intriguing features. How can both up and down lights look so identical? Hint: the up light reveals a small hole at the top of the glass. So why then, can't we see the cable through the glass? A 3-layered, hand blown glass does the trick.
