HOLLOW 125 LED GE

For designer James Van Vossel, it was time to rethink pure, simple forms. That's when the tube came in. And out. Hollow reignites the excitement and mystery surrounding this classical shape. How does it work? Where’s the light coming from? Hollow won’t be revealed until you touch it. Lit, dark, open, closed. A symphony of opposites, adjustable and versatile. For spaces that welcome intrigue and personality. It’s the light to discover.
