TRAPZ

TRAPZ

With their indirect lighting and subtle shadow effects, wall fixtures are undoubtedly atmosphere creators. Trapz, our organic interpretation inspired by a trapezium, is no different. The flattened cylinder has been finished with two oblique openings, which allow you to see the contrasting interior of the luminaire and immediately create an unusual chiaroscuro effect.

Rich colors in many places

A list of high-end spaces can benefit from our Trapz, thanks to a refined, angular design and the warm mood that its anodized colors can create. On the outside, you'll enjoy extra choices of anodized black, bronze, silver bronze and champagne, while the inside is available in black, champagne and aluminium. Try matching Trapz with Duell and Minude.

Softer light on your wall

We've added a subtle yet significant accessory to our Trapz. A new, optional diffuser hiding the light source softens and levels the light, and gives the light beam a more uniform glow. The diffuser accessory is field installable, so it can be added before or after installation which means ultimate flexibility in configuration.

colors	<i>black struc-gold white structure-champagne anodized black-black anodized black-champagne anodized black-aluminium anodized bronze-black anodized bronze-champagne anodized bronze-aluminium anodized silver bronze-black anodized silver bronze-champagne anodized champagne-black anodized champagne-champagne</i>
